Objectives

Go-getter and self-starter ready to take the position of Intern Front-End Developer / Intern Web Developer. Bringing three semesters of programming experience in HTML, CSS and JavaScript, together with JavaScript Frameworks, to help the company in developing great websites.

Summary

Thanks to my previous job experience I have developed a variety of social and professional skills.

I am hardworking, responsible, ambitious, and enthusiastic, but most of all I am friendly and highly motivated. I consider myself a mature team player and I easily adapt in challenging situations.

Throughout the past year I have been enthusiastic about development related tasks with specified deadlines. I have great time management skills which enables me to efficiently meet deadlines for each task and project.

I believe working at this company will give me the chance to maximize my career opportunities and allow me to use the various sets of skills I have picked up over my lifetime.
